2016	32.7%	31.7%	11.2%	15.0%	16.1%	3	N/A	488	4922
2017	27.8%	26.8%	37.3%	14.1%	15.4%	4	N/A	721	5132
2018	-4.2%	-5.0%	-14.6%	12.9%	14.6%	4	N/A	651	3655
2019 to date	5.4%	5.2%	9.9%					686	3916
3yrs per annum	14.0%	13.1%	10.7%						
5yrs per annum	7.3%	6.4%	3.7%						
Since inception per annum	13.8%	13.3%	9.1%						
Since inception cumulative	967.1%	870.5%	389.6%						

Inception of composite 1st January 2001.

NDR = Net Dividends Reinvested.

*Part of the composite AUM may include currency-hedged assets.

The value of all investments and the income from them can go down as well as up; this may be due, in part, to exchange rate fluctuations. Past performance is not necessarily a guide to future performance.

Disclosures

Compliance statement

Oldfield Partners LLP claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Oldfield Partners LLP has been independently verified for the periods 1st January 2001 to 31st December 2017. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Definition of the firm

Oldfield Partners LLP is an independent investment management firm established in December 2004, authorised by the FCA in January 2005, and beginning operations in March 2005. For the purposes of compliance with GIPS, the firm is defined as all assets managed by Oldfield Partners LLP. The firm also includes assets that were previously managed by Alta Advisers Ltd and were subsequently transferred to Oldfield Partners LLP. The historical performance record from Alta Advisers Ltd is linked to the performance of Oldfield Partners LLP.

List of composites

A complete listing and description of all composites is available on request.

Composite description

The Emerging Markets Equity Composite includes global emerging markets equity portfolios run with the following style: value focussed, concentrated, index ignorant and anti-short term. The benchmark for this composite is MSCI Emerging Markets Net Dividends Reinvested.

Composite creation date

The composite was created in June 2008, the date when the emerging markets assets transferred to Oldfield Partners.

Ex-post standard deviation

The three year annualised standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months. Standard deviation measures are not required for periods prior to 2011.

Fees

Gross of fees performance is calculated gross of investment management fees and as a rule net of custodial and administrative fees. Net of fees performance is presented net of actual investment management fees. Investment advisory fees are described in Oldfield Partners LLP's Form ADV Part 2A.

Fee schedule

Fees vary between accounts contained within the composite, in particular between segregated accounts and pooled vehicles. The highest fee Oldfield Partners LLP charges on any account within this composite is 1.25% per annum.

Historic Net/Gross returns

Net and gross returns are the same from 2001 to June 2008 as the investment management fees charged on the portfolios during this period were so low as to have an insignificant impact on performance and the decision was taken not to gross up the net returns.

Currency of results

The results are presented in US Dollar terms.

Exchange rates

Sources of exchange rates and share prices may differ between the benchmark and the individual portfolios contained within the composite.

Composite dispersion

Composite dispersion is only calculated if there are more than five accounts included in the composite for the full year. Dispersion is calculated as the highest return achieved for an account included in the composite minus the lowest return achieved for an account included in the composite. The calculation uses the gross of fees annual returns.

Leverage/Derivatives

The portfolios contained in this composite do not use leverage or derivatives.

Withholding and capital gains taxes

Performance is calculated net of all non-recoverable withholding taxes and where applicable, net of capital gains taxes.

Additional information

Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request. For the month of January 2001 only, the Emerging Markets Equity Composite includes the emerging markets segment from a larger portfolio. Cash is allocated to the carve-out segment return on a pro-rata basis depending on the proportion of emerging markets assets to the total portfolio based on the beginning of period market value.
