Performance disclosures - Global Equity Composite

Disclosures

Compliance statement

Oldfield Partners LLP claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Oldfield Partners LLP has been independently verified for the periods 1st January 2001 to 31st December 2014. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Definition of the firm

Oldfield Partners LLP is an independent investment management firm established in December 2004, authorised by the FCA in January 2005, and beginning operations in March 2005. For the purposes of compliance with GIPS, the firm is defined as all assets managed by Oldfield Partners LLP. The firm also includes assets that were previously managed by Alta Advisers Ltd and were subsequently transferred to Oldfield Partners LLP. The historical performance record from Alta Advisers Ltd is linked to the performance of Oldfield Partners LLP.

List of composites

A complete listing and description of all composites is available on request.

Composite description

The Global Equity Composite includes global portfolios run with the following style: large cap, value focussed, concentrated, index ignorant and anti-short term. There is no minimum account size and the benchmark for this composite is MSCI World Net Dividends Reinvested, calculated net of withholding taxes from the perspective of a Luxembourg-based investor.

Composite creation date

The composite was created when Oldfield Partners achieved GIPS compliance in June 2007.

Ex-post standard deviation

The three year annualised standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months. Standard deviation measures are not required for periods prior to 2011.

Fees

Gross of fees performance is calculated gross of investment management fees and, where applicable, net of custodial and administrative fees. Net of fees performance is presented net of actual investment management fees and where we operate as a sub-advisor it also includes the advisor's manager fees. Returns are net of all trading expenses. Investment advisory fees are described in Oldfield Partners LLPs Form ADV Part 2A.

Fee schedule

Fees vary between accounts contained within the composite, in particular between segregated accounts and pooled vehicles. Oldfield Partners LLP currently charges a standard management fee of 1.25% per annum on its pooled portfolios and on segregated accounts 0.75% per annum.

Historic net/gross returns

Net and gross returns are the same from 2000 to March 2005 as the investment management fees charged on the portfolios during this period were so low as to have an insignificant impact on performance and the decision was taken not to gross up the net returns.

Currency of results

The results are presented in US Dollar terms.

Exchange rates

Sources of exchange rates and share prices may differ between the benchmark and the individual portfolios contained within the composite.

Composite dispersion

Composite dispersion is only calculated if there are more than five accounts included in the composite for the full year. Dispersion is calculated as the highest return achieved for an account included in the composite minus the lowest return achieved for an account included in the composite. The calculation uses the gross of fees annual returns.

Leverage/Derivatives

The portfolios contained in this composite do not use leverage or derivatives.

Withholding and capital gains taxes

Performance is calculated net of all non-recoverable withholding taxes and where applicable, net of capital gains taxes.

Additional information

Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

Disclaimer

Source: Oldfield Partners LLP, Bloomberg and MSCI ©. The degree of underperformance in the future may be as great as or greater than the degree of past outperformance. Investment values may fall and investors may not get back the amount they invest. Income from investments may fluctuate, and both the value of and the income from investments may be adversely affected by exchange rate movements. © Oldfield Partners LLP 2016. Important information

This document is issued by Oldfield Partners LLP ("OP") which is authorised and regulated by the Financial Conduct Authority in the United Kingdom (the "FCA"). The investment products and services of OP are only available to persons who are Professional Clients for the purposes of the FCA's rules. They are not available to Retail Clients. OP has taken all reasonable care to ensure that the information contained in this document is accurate at the time of publication, however it does not make any guarantee as to the accuracy of the information provided. Comparison to the index where shown is for information only and should not be interpreted to mean that there is a correlation between the portfolio and the index. While many of the thoughts expressed in this document are presented in a factual manner, the discussion reflects only OP's beliefs and opinions about the financial markets in which it invests and these beliefs and opinions are subject to change at any time.

The Overstone Fund PLC (the "Company") is an investment company with variable capital incorporated with limited liability in Ireland and is organised in the form of an umbrella Fund. The Company has been authorised by the Central Bank of Ireland (the "Central Bank") as an investment company pursuant to Part XIII of the Companies Act, 1990. Authorisation of the Company is not an endorsement or guarantee of the Company by the Central Bank. Authorisation of the Company by the Central Bank does not constitute a warranty by the Central Bank as to the creditworthiness or financial standing of the various parties to the scheme and the Central Bank shall not be liable by virtue of that authorisation or by reason of its exercise of the functions conferred on it by legislation in relation to this Company for any default of the Company.

The Company has been authorised by the Central Bank of Ireland as a Qualifying Investor Alternative Investment Fund ("AIF") pursuant to Chapter 2 of the Central Bank's AIF Rulebook. OP has been authorised and regulated by the FCA in the U.K. as a full-scope U.K. Alternative Investment Fund Manager ("AIFM") pursuant to Part 2 of the Alternative Investment Fund Managers Regulations 2013 and acts as the external AIFM of the Company.

The Company is an open-ended investment company incorporated with limited liability under the laws of Ireland and is organised in the form of an umbrella fund with segregated liability between Funds. Its share capital may be divided into a number of Classes each representing interests in a Fund. The distribution of Prospectuses relating to Funds established by the Company is restricted in certain jurisdictions and accordingly it is the responsibility of any person or persons wishing to make an application for Shares to inform themselves of and to observe all applicable laws and regulations of any relevant jurisdiction.

United Kingdom: Funds established under the umbrella of the Company are not recognised collective investment schemes for the purposes of the Financial Services and Markets Act 2000 and the Funds may not be promoted to the general public. The Funds' Prospectuses may only be issued and the shares in the Funds may only be promoted in compliance with the Financial Services and Markets Act 2000 (promotion of Collective Investment Schemes) (Exemptions) Order 2001, as from time to time amended. Many of the protections provided by the United Kingdom's regulatory regime will not apply to investments in the Funds referred to in this communication including access to the Financial Ombudsman Service and the Financial Services Compensation Scheme.

United States: Shares in the Funds have not been and will not be registered under the Securities Act 1933 of the United States (as amended), the Investment Company Act (1940) or the securities laws of any of the States of the United States. Shares in the Funds may not be offered, sold or delivered directly or indirectly in the United States or to or for the account or benefit of any "US Person" as defined in Regulation S under the 1933 Act except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the 1933 Act and any applicable State laws.

Ireland: The Funds will not be marketed publicly in the Republic of Ireland without the prior approval in writing of the Central Bank. The Funds have not been approved by, and are not regulated by, the Central Bank of Ireland.

Canada: The Overstone Fund plc (Canadian Offering Memorandum) prospectus should be read in the context of and in conjunction with the Foreign Prospectus (together called the "Memorandum"). The offering in Canada of shares in the Funds is being made solely by the Memorandum and any decision to purchase shares in the Funds should be based solely on the information contained therein. No person has been authorised to give any information or to make any representations other than those contained in the Memorandum. The offering in Canada of shares in the Funds is being made solely to subscribers resident in the Provinces of Ontario, Québec, Nova Scotia, British Columbia and Alberta in reliance on exemptions from the prospectus and dealer registration requirements contained in applicable Canadian securities laws.

Australia: OP is exempt from the requirement to hold an Australian financial services licence under the Corporation Act in respect of financial services. OP is regulated by the Financial Conduct Authority under UK laws, which differ from Australian laws.

This document does not constitute an offer to buy or sell shares in the Funds. The offering materials of the Funds are the only authorised documents for offering of shares of the Funds. The offering materials may only be distributed in accordance with the laws and regulations of each appropriate jurisdiction in which any potential investor resides. In making a decision to invest in the Funds, prospective investors may not rely on the information in this document. Such information is subject to change and does not constitute all the information necessary to adequately evaluate the consequences of investing in the Funds. The Funds are only intended for sophisticated investors and an investment in them presents certain risks which are more fully described in the offering materials under "Risk Factors". Nothing described herein is intended to imply that an investment in the Funds is "safe", "conservative", "risk free" or "risk averse". Investors are also reminded that past performance is not indicative of future performance and that they might not get back the amount that they originally invested. Investors in the UK are reminded that they will not benefit from the UK investors compensation scheme.

Nothing in these materials should be construed as a recommendation to invest in the Funds or as legal, regulatory, tax, accounting, investment or other advice. Potential investors in the Funds should seek their own independent financial advice. OP neither provides investment advice to, nor receives and transmits orders from, investors in the Funds nor does it carry on any other activities with or for such investors that constitute "MiFID or equivalent third country business" for the purposes of the FCA's rules. OP may provide advisory or other services relating to, and connected persons may take positions in, investments mentioned herein.

The information contained in this document is strictly confidential and is intended only for use of the person to whom OP has provided the material. No part of this report may be divulged to any other person, distributed, and/or reproduced without the prior written permission of OP.

The following is a brief summary of only some of the risk factors which may apply to each of the Funds: An investment in a Fund carries with it a significant degree of risk. The value of shares in the Funds may fall as well as rise and investors may not get back the amount originally invested. Accordingly, an investment in a Fund should only be made by persons who are able to bear the risk of loss of all the capital invested. Investment Risk - An investment in a Fund involves investment risks, including possible loss of the amount invested. The capital return and income of a Fund are based on the capital appreciation and income on the investments it holds, less expenses incurred. Therefore, a Fund's return may be expected to fluctuate in response to changes in such capital appreciation or income. Currency Risk - Each Fund is denominated in either U.S. Dollars, Euro or Sterling but the investments of a Fund may be acquired in a wide range of currencies and this will create currency exposure. Political Risks - The value of a Fund's assets may be affected by uncertainties, such as political developments, changes in government policies, taxation and currency repatriation and restrictions on foreign investment in some of the countries in which the Funds may invest. Counterparty and Settlement Risks - The Funds will be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default. In addition, market practices in relation to the settlement of transactions and the custody of assets could provide increased risks. Emerging Markets - Where a Fund invests in equities or securities of companies incorporated in or whose principal operations are based in emerging markets additional risks may be encountered. These include: (a) Currency Risk: the currencies in which investments are denominated may be unstable, may be subject to significant depreciation and may not be freely convertible; (b) Country Risk: the value of the Fund's assets may be affected by political, legal, economic and fiscal uncertainties within the emerging markets; (c) Market Characteristics: some emerging markets are still in the early stages of their development, have less volume, are less liquid and experience greater volatility than more established markets and are not highly regulated; (d) Custody Risk: in some markets custodians are not able to offer the level of service and safe-keeping, settlement and administration of securities that are available in more developed markets; and (e) Disclosure: less complete and reliable fiscal and other information may be available to investors and accounting standards may not provide the same degree of shareholder protection as would generally apply internationally. Substantial Repurchases - If there are substantial repurchases within a limited period of time, it may be difficult for a Fund to provide sufficient funds to meet such repurchases without liquidating positions prematurely at an inappropriate time or on unfavourable terms. Investment in Other Collective Investment Schemes - Each Fund may invest in other collective investment schemes and management fees and performance fees (if applicable) will be in addition to each Fund's charges.

The foregoing summary list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the Fund. Prospective investors must read the entire Offering Memorandum of the Company and consult with their own legal, tax and financial advisers before deciding to invest in a Fund.
